

DRAG & DROP APP SIMULATOR

OVERVIEW

OBJECTIVE:

Help STEMbot place objects into appropriate locations on the screen! Once the objects are placed, choose the appropriate blast type to blast the enemy out of the sky!

HOW TO PLAY:

Move the boxes onto appropriate positions on the screen. Use them to create the best user interface. Use the mouse to click and drop them. **BE VERY CAREFUL WHERE YOU PLACE THE OBJECTS. YOU WILL BE SCORED ON THEM!**

From there, choose the blaster type that will lead to the most appropriate user experience in the game.

GAME CONTROLS

- Click to pick up and click again to drop boxes into their appropriate locations
- Use the “s” key to shoot
- Use the arrow keys to aim the blaster

LEARNING OUTCOMES

This game is designed for students to critically examine design components in order to create a logical and appealing user interface

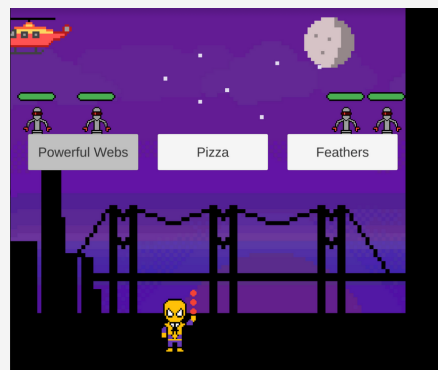

Shooting

Dragging Box

Choosing Weapon

HELPFUL HINT:

Remember how high planets look in the sky!

HELPFUL HINT:

Gravity takes effect on the blasters!
