

HTML CODING & CARDS

GAME #2 - SLAP JACK

OVERVIEW

OBJECTIVE:

STEMBOT needs to know if he has written his CSS Code correctly.

HOW TO PLAY:

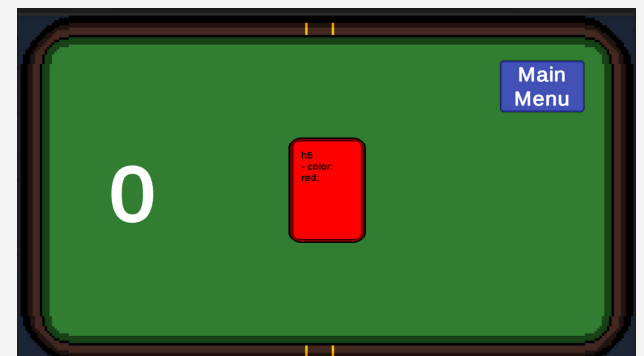

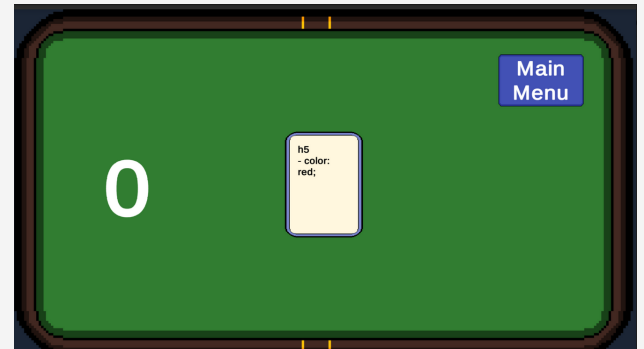

You will be shown a card with CSS code on it. You have 5 seconds to decide whether information on the card is correct or not. If you see an error in the code, click on the card as fast as possible. If the code is correct, don't click anything.

GAME CONTROLS

- Cursor: click on the cards that appear to be incorrect.

LEARNING OUTCOMES

This game is designed for students to apply their knowledge of CSS Tags, matching CSS tags to their corresponding CSS code and using proper syntax when writing HTML and CSS code.

HELPFUL HINT:

Look for errors like missing semi-colons and the correct use of tags.
