

# PHOTO MATCHING

## OVERVIEW

### OBJECTIVE:

STEMbot needs help learning about different angles, perspectives, and lighting used in photography. Help STEMbot by matching your picture to the one given in the top left corner.

### HOW TO PLAY:

Take a look at the picture given at the top left corner of the screen. Click the black and white tab on the right side of the screen to open the element of photography menu.

Choose one option from each of the three columns so that the main photo on the screen matches the one in the top left corner.

## GAME CONTROLS

- Use the mouse to click on the tab to open and close the matching menu
- Use the mouse to select one option from each column and click submit

## LEARNING OUTCOMES

This game is designed for students to apply their knowledge and understanding of different angles/perspectives, lighting types, and lighting positions used in photography.

Element of Photography Matching Selections

### HELPFUL HINT:

Remember that the lighting colour is the colour associated with that temperature

### HELPFUL HINT:

Low means close to ground, high means further away from ground and bird's eye means the farthest away!
